

Machine Studies

Schedule for Run3-10,2001

September 30, 0000-24000

Time	Descriptions	Studiers	SRStatus
	Sunday, 09/30/01		
0000-0010	Archive SR pulsed supply waveform	OPS	Store beam and injection
0000-0200	RF waveguide switch to parallel operations mode, and fill to 102 mA	Horan Nassiri	Store beam and injection
0200-1400	200 mA high current study, from 100mA, increase current by 10mA every half hour, maintain 200mA for 1 hour	Borland Yao Horan	Store beam and injection
1400-1500	Convertor swap	OPS	Store beam and injection
1500-2200	Storage ring copper water system temperature experiment	Swetin Sharma	Store beam and injection
1500-1600	Establish X-ray BPM reference file for next run	Singh Erwin	Store beam and injection
1600-2000	Booster Quads filter test, injection uncertain	J. Wang PS group	Store beam
2200-0200	High current power supply study	McNamara PS group	No beam
	End of Studies
