### Agilent E3631A Triple-Output Power Supply

The Agilent E3631A 80-watt triple-output power supply provides three dc outputs: 0 to 6 V with a maximum current of 0 to 5A and 0 to 25 V and 0 to -25 V with a maximum current of 1.0A. An auto-tracking feature lets you use one voltage control to adjust the +25 V and -25 V outputs simultaneously. The outputs track each other to within 1 percent, making it easy to adjust the power supply circuits requiring balanced voltages

### E3631A

### Features:

- 80 W triple output
- Low noise/excellent regulation
- GPIB/RS-232 standard
- Isolated 6V output
- SCPI compatible
