

ARGONNE NATIONAL LABORATORY

INTRA-LABORATORY MEMO

DATE: August 31, 2004

TO: Attendees

FROM: John Maclean

SUBJECT: BCDA Group Meeting – 08/16/04

ATTENDEES: John Maclean, Kurt Goetze, Carlotta Lukowski, Ben-Chin Cha, Brian Tieman, Peter Fuesz, Joe Sullivan

ABSENT: Tim Mooney-Vac; Ron Sluiter-ill

STATUS:

John:

- Will be meeting with Bill Ruzicka to discuss the budget. Please let him know of any items needing to be purchased by tomorrow.
- Ron is out for minor surgery.
- There will be an XOR CIG meeting on 8/19 Sergey Stepanov is giving a presentation regarding the X-ray Server. The group is invited to attend.
- The first two EPICS getting started lectures will be presented today beginning at 2:00 pm. The group is invited to attend.
- There will be a TWG meeting on Thursday, 8/19. The group is invited to attend.

Ben-chin

- Ben-chin will look into missing SDDS support for Brian.
- Working with 24 bit support for scanSee.
- Working on HDF5 browser

Brian:

- C++ version of multi-tau algorithm now ported to Linux.
- Move of nanoprobe and Sun workstations to Sector 8.
- Need SDDS EPICS tools for Solaris – built on beams

Peter:

- Unpacking.
- Consolidating parts.
- Computer returned by Eric is repaired. Reinstalled XP. The Gateway computer can't be installed on the network. Peter is looking for a resolution.
- Ron referred a user who needed 167 flash chip.
- Sensitive item inventory.
- Had Eric's laptop configured for the network. Using this laptop for chip programmer. Subscription is \$1,800.00 per year. Jim Stevens has a subscription. Will check on a site license.
- Talked to Steve Ross re: microscope surface mounts and inspections. Cost: \$2-10K.

Carlotta:

- Working to schedule on-going EPICS lectures.

Kurt:

- Worked on Ulriks motor driver to establish communication and address issues with compatibility.
- Updated feature sheets.
- Transition board needed by Diamond in the UK.
- New requests for upgrades before shutdown.
- Jonathan needs 2 carriers and boards. How does this affect budget?

Joe:

- Sector 8 installations. Added AIM MCA and data visualization tools.
- Helped GMCA with problems they had communicating with a PLC.
