1 INTRODUCTION

1.1 Purpose

This procedure is to assure that visits to the Advanced Photon Source (APS) by members of the media (photographer, videographer, reporter, writer, etc., denoted herein as the media requestor) or Communications and Public Affairs (CPA) media personnel or CPA or other VIP tours requesting photo access: 1) conform to U.S. Department of Energy and Argonne National Laboratory safety and security requirements; 2) are conveyed to the Photon Sciences Directorate (PSC) management; and 3) are conveyed to Argonne Communications and Public Affairs (CPA) who will assist with the visit in accordance with Argonne and CPA requirements for such visits.

1.2 Scope

This procedure defines the steps to take prior to bringing a media requestor into an APS facility.

Media is defined as: The main means of mass communication (broadcasting, publishing, and the Internet), regarded collectively.

The procedure ensures that PSC management and the Laboratory media relations personnel are notified of the media requestor visit and details follow-on actions that require adherence to DOE and Argonne policies.

Requests for interviews with PSC personnel that do not include a site visit are not covered by this Procedure; see: Laboratory-Wide Argonne Policy LMS-POL-7, Rev. 5, “Communications with the Public, News Media, and Government Agencies.”

1.3 Applicability

This procedure is to be followed whenever a member of the media (photographer, videographer, reporter, writer, etc.) visits any APS facility.
2 Procedure

The following procedure is to be initiated and completed by the person – Argonne employee or APS user – hosting/coordinating the visit by the media, or by CPA media personnel, or by VIP tours requesting photo access. When the host/coordinate is a PSC employee, that person is responsible for informing their Divisional management of the visit.

If a user-hosted visit takes place at a collaborative access team (CAT)-operated beamline or sector, it is the responsibility of the CAT director/manager to make the user aware of the process described in this document and to ensure that the process outlined below is followed.

If the visit involves touring a sector operated by a CAT, then the CAT management will be notified in advance.

- Attachment of all releases required by media requestor (e.g., location form, release for use of Argonne video/photos/interview subjects, etc.)
  *If the request is for VIP tour or CPA media personnel access, the subject line should include: No ALD action required.

2. **ALD office personnel**
   - Arrange gate passes and, if required, foreign national registration (the latter requires ~7 days to process) except *above.

3. **CPA Media Relations Manager**
   - Per CPA communications standards, notify relevant Argonne offices, process any release forms required by media requestor, and return signed forms to host/coordinator, cc’d to mediavisit@anl.gov.
   - Notify host/coordinator that visit has been approved or that unresolved issues exist. In the latter case, CPA notifies mediavisit@anl.gov of this change.

4. **Host/coordinator, CPA media personnel, or VIP tours requesting photo access**
   - Assure that the relevant facility areas are clean and free of extraneous tools, etc.; if the visit includes leaving a specific sector, notify the Building Manager of the locations where the visitor may be taken (Building Manager to follow up on request).
   - All on-camera personnel must wear safety glasses in experiment stations.
   - All on-camera personnel must remove Argonne ID badges.
   - All on-camera work must be conducted according to correct safety practices and with correct personal protective equipment.
   - Any potentially export-control sensitive materials (equipment, drawings, etc.) must be removed from locations that will be on-camera by informing Export Control Office of tour destinations(s).

5. **PSC employee/resident user escort**
   - Media visitors must be escorted at all times in all APS facilities by a PSC employee or by a resident user.
